WHY A TOOLKIT FOR USE BY LOCAL ELECTED REPRESENTATIVES?

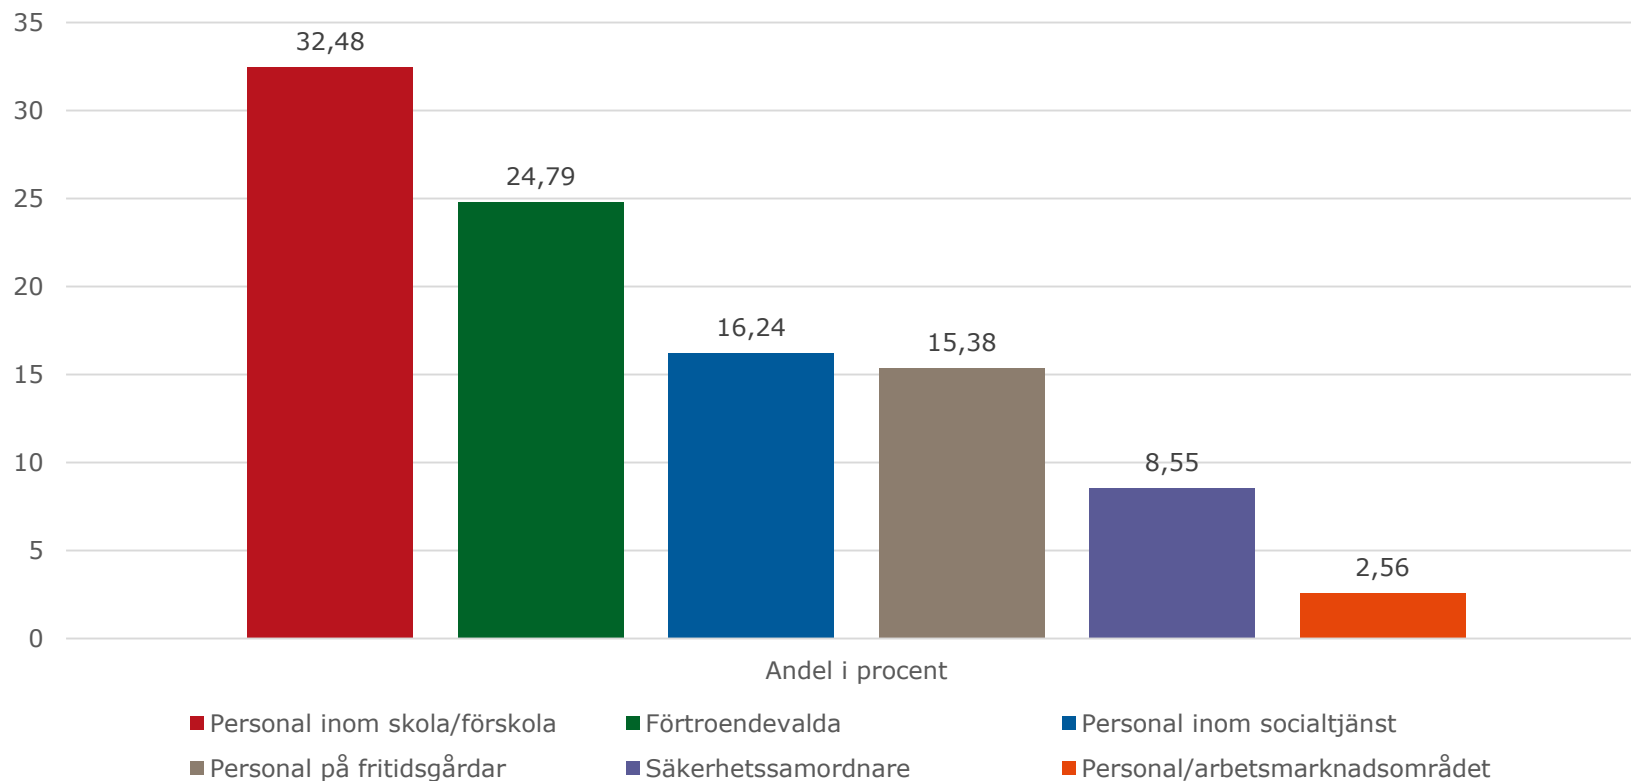

The Congress of Local and Regional Authorities of the Council of Europe has been working for over 20 years to promote a more inclusive and more resilient society.

The attacks committed in Europe in recent years have highlighted the issue of the increasing radicalisation of certain sections of the population, the spread of new forms of hate speech and the stigmatisation of some of our communities. As a response to these trends and to encourage towns and regions to be more active in this area, in 2015 the Congress adopted a Strategy to Combat Radicalisation at Grassroots Level and drew up guidelines for public action.

The purpose of the toolkit developed by the Congress is to inform local and regional authorities more effectively about these new issues.
