Skåne Association of Local Authorities is are pleased to invite you to the event:

How to implement the rights of the child at local level?

Open Days 2015: The Nordic House 14th October 14-15.30

33 municipalities in Skåne, Sweden are first out educating 150 child rights specialists in our municipalities. We would like to share this experience with other regions and municipalities in Europe – and therefore we are organizing an event as part of the Open Days 2015 agenda focusing on implementation of the rights of the child at local level seen from a Swedish and European perspective.
